

# monometal/bimetal/trimetal bearings

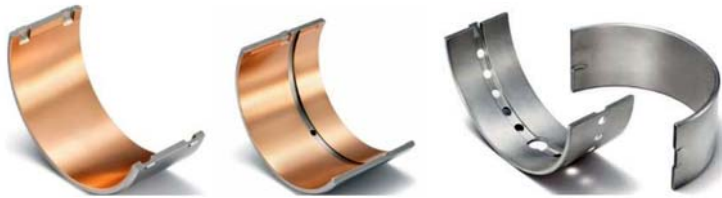

We are proudly announcing our cooperation with FM PBW BEARINGS PVT. LTD, covering products of Monometal/ Bimetal/Trimetal Bearings, Bushing, Thrust Washers, Thrust & Tilting Pads used on Light and Heavy Engines, Locomotives, Homogenizers, Pumps, Compressors, Earthmoving Equipment, Turbo Machinery, Turbines and various other Reciprocating/Rotating machinery.

Bimetal & Trimetal bearings and bushings are manufactured by indigenously developed Centrifugal Casting technology and Sintering Process, enabling both thick and thin wall bearings to be of exceptional strength.

FM PBW BEARINGS PVT.LTD. are able to offer Main bearings, thrust bearings, connecting rod bearings and bushes for Major Engine Builders such as but not limited

**MAN AUGSBURG, WARTSILA, M.A.K./CATERPILLAR, DAIHATSU, YANMAR.**

plain & flange bearings shells

bushing & washers

precision bushing

journal, thrust & tilting pad bearings
